Dear Supervisor:

It is a pleasure to write this letter for Ms. Martha Weber. She has presented herself in a highly dependable and professional manner during her student teaching experience at the elementary level in the Whitehall-Coplay School District.

Martha taught students, ages five to ten years old, at the kindergarten level, up to and including, the fourth grade. Her schedule also included several "multiple handicapped," and "learning disabled" students.

Her classroom manner was very warm, friendly and well organized. Martha always used good judgment in easily handling any unexpected classroom situation. Ms. Weber creates an excellent rapport with her students, which leads to a very positive learning atmosphere.

Her lessons displayed good background knowledge and presented relevant information and art concepts, while making good use of demonstrations and supporting materials.

Martha has a very delightful personality and blended in well with our entire school staff. She assisted classroom teachers by creating lessons that were appropriate for the various grade levels, as well as, preparing several displays throughout the building.

Ms. Weber should be a beneficial addition to any teaching staff.

Yours truly,
